

NEOSYSTEMS DFARS 7012 SURVIVAL PACK

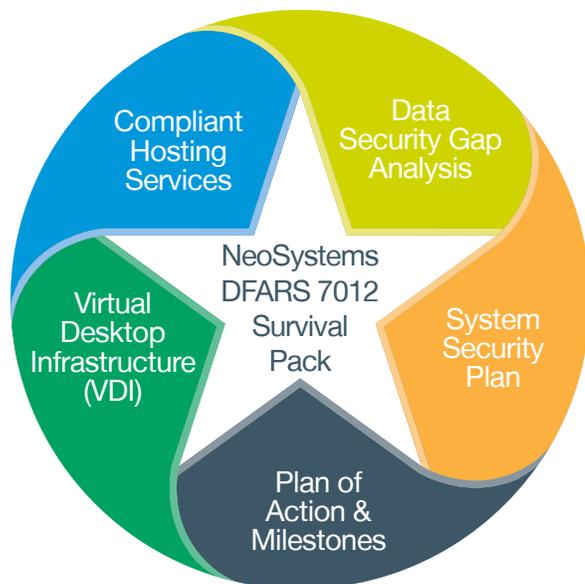

A comprehensive service and technology offering to evaluate your data security system, articulate detailed requirements and action plans, and deliver a NIST SP 800-171 compliant solution that satisfies the December 31st DFARS 252.204-7012 regulations for defense contractors.

The DFARS 252.204-7012 December 31, 2017 deadline is rapidly approaching. The Department of Defense has established National Institute of Standards and Technology (NIST) 800-171 as the minimum security standard which defense contractors must adhere to for protecting controlled defense information (CDI) and controlled unclassified information (CUI). And this clause applies to both prime contractors and subcontractors.

NeoSystems offers a 360-degree solution to satisfy DFARS 252.204-7012 safeguarding CDI and cyber incident reporting compliance. Here's what you can expect:

- ▶ Comprehensive security gap analysis against NIST SP 800-171
- ▶ System Security Plan (SSP) to address gaps and vulnerabilities
- ▶ Formal Plan of Action and Milestones (POA&M) to address gaps
- ▶ Virtual desktop infrastructure to safeguard data access (VDI)
- ▶ Compliant cloud hosting services to protect CUI and CDI

The December 31st deadline demands obligatory compliance for Defense Contractors. And contractors could be facing dire consequences by not meeting the deadline including breach of contract, liquidated damages, termination for default and violation of False Claims Act. Many of the controls articulated in 800-171 require considerable time, effort and resources to implement. Don't delay any longer. Let NeoSystems develop a secure solution that aligns all your process and cyber security system requirements quickly and cost effectively.

CITRIX®

GBprotect
Personalized Approach • Better Security

 **Microsoft**

- ✔ Initiating your own internal effort risks the security of all your systems and equipment, and would incur significant upfront costs.
- ✔ Our solution incorporates all essential steps, services and technology from start to finish for one reasonable monthly cost.
- ✔ NeoSystems aligns our own services and infrastructure with industry-leading partners such as Citrix, GBprotect and Microsoft to deliver a seamless, secure data cloud for defense contractors.

About NeoSystems

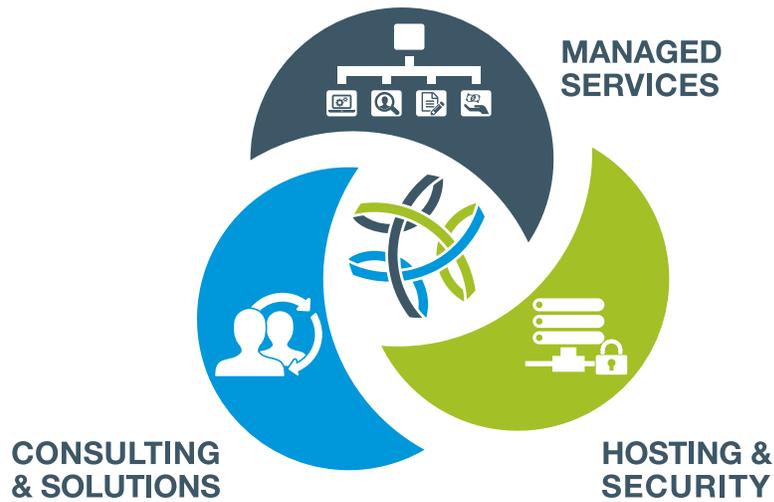

NeoSystems Corp., based in Tysons Corner, Virginia, specializes in performing strategic back office services for government contractors. As an Ultimate Software Partner, NetSuite Solution/BPO Partner, Deltek and IBM partner, NeoSystems leverages its network of industry experts, best-in-class software, and advanced technical infrastructure to create tailored solutions for its clients.
