

# NEOSYSTEMS CONSULTING SERVICES

NeoSystems, a Deltek's only Platinum Partner, offers Costpoint consulting services to create system efficiencies for government contractors. Our goal is to provide your key resources with more accurate, real-time information that leads to smarter growth decisions. We have extensive experience in developing back office system strategies for clients using Deltek, IBM® Cognos®, and other leading software packages.

With the right strategies and systems in place, your management teams can easily respond to the unique requirements inherent to your industry and environment. Government contractors rely on our experience as a Deltek Platinum Partner to support DCAA compliance by following CAS, FAR, and DFARS requirements.

Our flexible approach offers on- or off-site support on a part-time, full-time, or project basis. That way, NeoSystems ensures cost-effective and efficient support, while freeing up more time for our clients to focus on growing their organizations.

Our clients enjoy many benefits of working with us including:

## Access to the Cloud

The new release of Costpoint 7 increased data accessibility by moving to the cloud. However, this comes with many technical requirements. NeoSystems helps manage the transition with short- and long-term hosting options.

## Increased Insight

Using the IBM Cognos suite, NeoSystems crafts reporting packages that are essential to government contractors. You'll gain instant visibility into project-level and company-wide performance.

## Win More Contracts

Good accounting data is useful. But great accounting data helps you win more contracts. Our experts ensure that your system is optimized for yielding the precise data you need to succeed.

## Expanded Staff Expertise

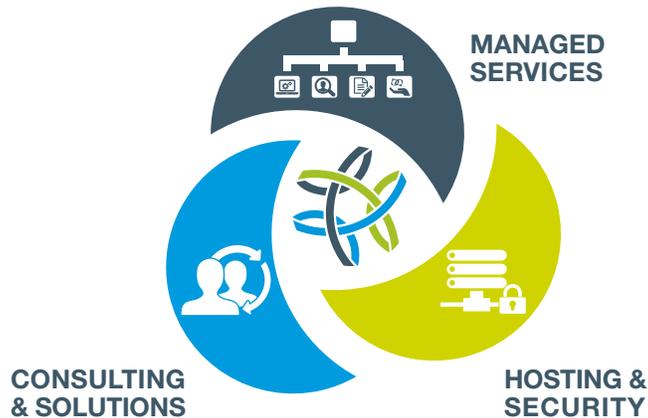

NeoSystems offers both system-wide and module-based training that's tailored to your specific Costpoint environment.

## CONSULTING AT A GLANCE

- ✔ **Implementations**  
We have performed hundreds of successful Deltek Costpoint implementations. Our methodology is based on proven best practices that enable your business to run smarter from the very start.
- ✔ **Costpoint 7 Upgrades**  
As part of the Costpoint 7 beta testing program, NeoSystems has the insight to successfully migrate data from existing systems into the new, web-based architecture.
- ✔ **Costpoint 7 Extensibility**  
NeoSystems leverages Extensibility to bridge the gap between Costpoint and third party systems, creating an integrated, tailored solution.
- ✔ **Reporting**  
NeoSystems' team of financial analysts specializes in implementing the full suite of IBM® Cognos®, including Cognos 10, TM1, FSR, and SPSS.
- ✔ **Hosting**  
NeoSystems hosts Costpoint environments in a secure, private cloud. Our hosting centers are SSAE-16 SOC 1 & SOC 2, PCI-DSS, ITAR, and MA 201 compliant to meet the data security requirements of your clients.
- ✔ **System Reviews**  
Our experts conduct detailed analyses of the current architecture and operating procedures of your Costpoint environments to determine opportunities for improvement.
- ✔ **Training**  
NeoSystems offers a full suite of Costpoint training courses for users looking to expand their skill-sets.
