

# NEOSYSTEMS TOTAL CUI SOLUTION

## Expert Managed Services and Back Office Solution Support

Our end-to-end CUI (Controlled Unclassified Information) solution enables DFARS 7012 compliance to keep your data secure and meet the 110 controls under the NIST 800-171 security standard.

### ▶ Security Planning

- Connect clients with recommended 3rd-party security assessment professionals and managed security service providers that provide NIST 800-171 assessment services.

### ▶ Managed IT Services – DFARS-compliant Desktop as a Service (DaaS) or Workspaces

- A DFARS-compliant cloud solution featuring Virtual Desktops for protecting and isolating CDI/CUI applications and data
- Applications supported include: MS Office, Exchange, Proofpoint, MS Project, Citrix ShareFile and most Windows 10 compatible PC applications

### ▶ Managed Hosting Services – DFARS-compliant Application Hosting Services

- A DFARS-compliant cloud solution featuring Internet and private network connectivity for protecting CDI/CUI applications and data
- Applications supported include: the Deltek suite of applications, IBM Cognos applications and other COTS products that supports multi-factor authentication

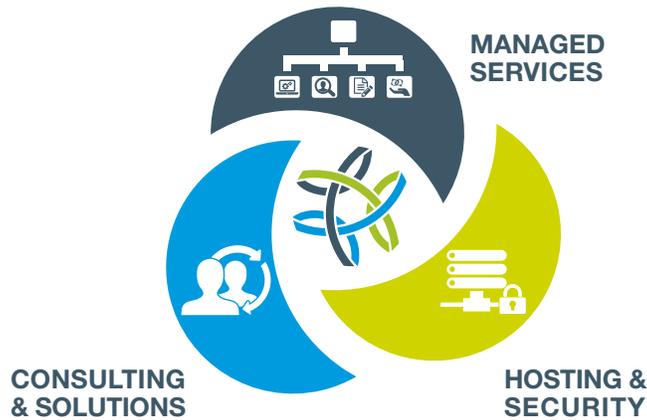

### ▶ Log Management and Incident Reporting Services

- NeoSystems delivers tools for collection and storage of in-scope log data, along with incident reporting and response services. We offer these through strategic partners we have thoroughly vetted, in concert with our Managed IT Services.
