

NeoSystems Expense Connector for Deltek Costpoint

With the NeoSystems Expense Connector integration tool, users can now bridge the divide between Concur Expense and Deltek Costpoint for a 360-degree view of expenses.

NeoSystems Expense Connector extends the integration capabilities between Concur Expense and Deltek Costpoint. It effectively provides a bridge for data to pass back and forth, and allows Concur Expense to enforce the business rules while enabling applications to programmatically import, manage, and export data – working seamlessly across diverse sets of applications – thereby greatly improving efficiency and accuracy.

Now you can stop entering your expenses into two separate systems. You get a complete view of your spending with tight integration between Concur Expense and Deltek Costpoint. Government contractors of all sizes can accurately and predictably manage their travel and other expenses with an automated data synchronization, giving them a consistent and up-to-date look at their finances.

Post expense data directly from Concur Expense into Deltek Costpoint, allowing you to process your employee reimbursements significantly faster, which is guaranteed to put a smile on their face.

NeoSystems Expense Connector provides many integration points between Concur Expense and Deltek Costpoint including:

- Employee Export (standard employee information flows from Costpoint to Concur Expense)
- Approved Expenses (approved expenses flow to Costpoint as AP vouchers)
- Project Assignment (employee project assignments flow to Concur Expense)
- Paid Expenses (paid expense report confirmations flow to Concur Expense)

Seamless data integration between Concur Expense and Deltek Costpoint delivers a single view of all your spending in a timely manner.

Costpoint Integration with Concur Expense

The NeoSystems Expense Connector for Costpoint eliminates duplicate data entry in multiple systems and the delays of manual exports, providing a quick, simple and accurate way to process expense transactions in Costpoint. Plus, you can post financial transactions and payments faster in Costpoint.

- Direct Costpoint integration delivers updated data for faster reimbursements.
- Eliminate manual non-compliant processes such as file downloads and uploads.
- Minimize data posting errors; automation keeps master data in both systems in sync.

Up-to-Date Financial Postings

Near real-time data synchronization of Expense, Lists and Users between systems means no manual interaction is required and your organization can reimburse employees faster.

Move to the Cloud Securely

OAuth2 token based authentication provides for a secure, encrypted, and connected solution in a compliant, secure integration using Web Services.

One System...Connected

Concur Expense and Costpoint bring visibility and reporting across all channels of employee spend in a single system - yours.
