

Optimize your operational model to unleash greater value.

NeoSystems Systems Professional Services help organizations improve the overall performance of their businesses by ensuring their systems are effective, their processes provide efficient use of all re-sources, and that both support a well-defined strategy aligned with overall organizational goals.

NeoSystems follows the PEAR Operational Model (Plan, Execute, Analyze, Retool) to optimize resource allocation, spending, information technology and business processes. Following PEAR, we cover all aspects of your operational model to help you create and deliver value to internal and external customers.

PEAR MODEL:

PLAN | EXECUTE | ANALYZE | RETOOL

PROFESSIONAL SERVICES

1-PLAN: Financial Planning and Budgeting

Financial planning and analysis provides a picture of an organization's financial health, enabling improved future planning and strategic decision-making by management.

Our budgeting, planning and forecasting solution is a fully-unified CPM and BI platform that combines industry and finance expertise with Workday Adaptive Planning. GovCon and other contracts-based businesses receive organizational and project budgeting models that work as extensions of the Workday Adaptive platform and integrate directly with Deltek Costpoint or any other ERP systems.

2-EXECUTE: Systems Integration and Implementation

With NeoSystems implementation and integration services you get the most out of your software investments. We help you establish a secure, resilient, functional environment so your business can perform and scale with accuracy and reliability.

Our integration and implementation services include:

- New ERP system implementation and integration
- ERP system migration and system redesign
- System and Business Process Reviews
- Strategic Planning and Infrastructure Design
- Deltek Costpoint Web Services and Extensibilities
- ERP Assessment
- Human Capital/Payroll Management (featuring UKG Pro)

3-ANALYZE: Analytics and Enterprise Reporting

REPORTING AND ANALYTICS: NeoSystems on-demand reporting and analytics solutions are tailored to your unique needs, providing insight into the key performance indicators you need to run your business.

FINANCIAL MODELING SERVICES: NeoSystems' financial modeling services allow you to understand how business decisions can affect today's environment and tomorrow's outcomes.

CONTRACT MANAGEMENT. NeoSystems' Contract Management Services include Cost Proposal Support and Contract Administration, as well as government compliance activities such as incurred cost submission and disclosure statements. We understand complexities of contracting and subcontracting in the federal marketplace so you don't have to.

4-RETOOL: Business Process Improvement

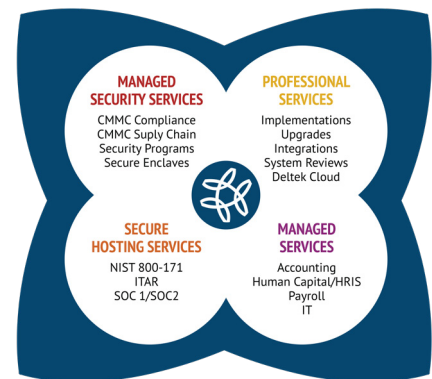

NeoSystems Business Process Improvement services, powered by Integrify, analyze your business processes, simplify and streamline process workflows, and manage BPM and workflow performance issues using the latest technologies such as workflow tools and Robotic Process Automation (RPA).

CHANGE MANAGEMENT: Change management provides a framework for managing the people side of change. Change management supports people through the transition from current state to future state and is focused on what is needed for individuals across the organization to embrace and adopt the change.

About NeoSystems

If your business is challenged by government regulations or your back office overly burdened, NeoSystems can help. As the experts in compliance and back-office functions, we can take accounting, finance, payroll, HR, IT and Information Security off your plate. We bring experience, best practices, technology, and compliance assurance to the table, allowing you to focus on your mission: winning new contracts and improving your bottom line.

We understand back-office, compliance, and cybersecurity so you don't have to.

- Proudly serving GovCons, Non-Profits, commercial and project-based firms
- Best-in-class technology partners with Deltek, Microsoft, Workday, SAP, Integrify, UKG

Grow ahead...We've got your back office.
